

Nobel Prize 2025 Winners List: Check Winner Names from All Category-wise (Updated)

The Nobel Prize is the most prestigious and respected award given every year to the organisation and people who seem to be of the greatest interest, on which shall be distributed annually as prizes to those who confer the greatest benefit on mankind in the preceding year.

The distribution of the Nobel Prize 2025 has already begun on 06 October 2025, and it will end by 13 October 2025. Winning a Nobel Prize is the greatest achievement in mankind.

What are Nobel Prizes?

The Nobel Prizes are among the most esteemed international awards, recognising individuals or organisations whose work has significantly benefited humanity. First awarded in 1901, these prizes were established according to the will of Alfred Nobel, the Swedish chemist, engineer, and inventor.

Each laureate receives:

- A gold medal
- A diploma
- A cash award (in 2023, it was approximately 11 million Swedish kronor, over 1 million USD)

Typically, up to three people can share a prize, while the Peace Prize can also be awarded to organisations.

Nobel Prize Categories

Alfred Nobel's original will outlined five fields, and a sixth was added later. Today, the Nobel Prizes are awarded in six categories:

- **Physics** – for groundbreaking discoveries in nature and the universe.
- **Chemistry** – for exceptional achievements in chemical sciences.

- **Physiology or Medicine** – for discoveries that enhance human health.
- **Literature** – for distinguished literary work.
- **Peace** – for efforts toward promoting peace and resolving conflicts.
- **Economic Sciences** – established in 1968 by the Swedish central bank in honour of Alfred Nobel.

Who won the Nobel Prize in Physiology or Medicine in 2025?

The [Nobel Prize in Physiology or Medicine](#) in **2025** was awarded to **Mary E. Brunkow, Fred Ramsdell** and **Shimon Sakaguchi** for their groundbreaking discoveries concerning peripheral immune tolerance that prevents the immune system from harming the body.

Their discoveries have laid the foundation for a new field of research and spurred the development of new treatments, for example, for cancer and autoimmune diseases.

Who won the Nobel Prize in Physics in 2025?

The [Nobel Prize in Physics](#) in **2025** was awarded jointly to **John Clarke, Michel H. Devoret** and **John M. Martinis** "for the discovery of macroscopic quan

Who is Awarded the Nobel Prize 2025 for Chemistry?

The Royal Swedish Academy of Sciences has decided to award the 2025 [Nobel Prize in Chemistry](#) to **Susumu Kitagawa, Richard Robson** and **Omar M. Yaghi** "for the development of metal-organic frameworks."

Who was Awarded the Nobel Prize for Literature in 2025?

Nobel Prize for Literature in 2025 is given to Hungarian author "[László Krasznahorkai](#)", "for his compelling and visionary oeuvre that, in the midst of apocalyptic terror, reaffirms the power of art."

Who was Awarded the Nobel Prize for Peace in 2025?

The Nobel Prize for Peace in 2025 is awarded to "Maria Corina Machado" for her tireless work promoting democratic rights for the people of Venezuela and for

her struggle to achieve a just and peaceful transition from dictatorship to democracy.

Who was Awarded the Nobel Prize for Economic Sciences in 2025?

The Royal Swedish Academy of Sciences has decided to award the 2025 Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel to **Joel Mokyr, Philippe Aghion** and **Peter Howitt** “for having explained innovation-driven economic growth” with one half to **Mokyr “for having identified the prerequisites for sustained growth through technological progress”** and the **other half jointly to Aghion and Howitt “for the theory of sustained growth through creative destruction.”**

What is the history of the Alfred Nobel Prize?

Alfred Nobel was born in 1833 in Stockholm, Sweden. He was a prolific inventor, holding 355 patents, including dynamite, and amassed substantial wealth. Experimentally, once, Nobel read a premature obituary calling him the “Merchant of Death” because of his explosives.

From being dead and no one recognising him, his discovery and invention for mankind, he decided to leave a positive legacy.

In his 1895 will, Nobel dedicated 94% of his fortune to create a fund for the Nobel Prizes. The Nobel Foundation was later established to manage the funds and oversee the awards. The first prizes were awarded in 1901, five years after Nobel died in 1896.

Why Does the Nobel Prize Matter?

The Nobel Prize is the pinnacle of recognition in science, literature, peace, and economics. It:

- Encourages innovation, discovery, and peace-building efforts.
- Honours work that improves human life and society.
- Inspires future generations of scientists, writers, and leaders.

Over the years, more than 1,000 individuals and organisations have been awarded the Nobel Prize, with some recipients earning it multiple times.
