# LIFE AT AN INTERSECTION?

In a world where competition & change is growing every minute, embarking upon the advanced concepts can really help you stand out from the pack.

Being a professionally managed institution, Chandigarh University (CU) recognizes the importance of new-age postgraduate study. With us, you can expect unmatched employment opportunities, a cutting-edge unique academics and global exposure that makes your degree an asset.

**Chandigarh University opens up a plethora of opportunities!**

## Many ask, WHY STUDY AT HIGHER LEVEL?

Your aim may include intellectual curiosity about a specialist topic, boost for employment or a second career in completely different field. Whatever it is, we offer and support to help you achieve it. Post-Graduate study can provide you with:

- Specialist skills and applied experience
- Enhance knowledge in chosen subject
- The opportunity to conduct original research that contributes to specialized knowledge in that field
- Smaller classes and closer links with subject matter experts
- High academic attainment and self discipline
- Independent research capability and original thought, particularly for research based qualifications.
- A marketable qualification which could make you more employable, qualified and in many cases, more financially secure.

Postgraduate study could be your ticket to a more influential and interesting career, be it in research or leadership roles. With CU you will gain more than just intellectual skills and professional knowledge; our graduates are work-ready, play an active role in the community, and globally connected.

**National Record for  
HIGHEST NUMBER OF  
COMPANIES IN ONE

your aspirations.

# UNIQUE & GLOBALLY ADAPTABLE ACADEMICS

Studying at Chandigarh University will give you more than a degree – it will provide practical skills and experience which you can apply to your future career.

Throughout your time at CU, everything is tailored to ensure you are equipped with the exact skills you need to develop a successful career. We believe that education is a journey, not just a piece of paper.

## Research-Informed Teaching

Our programs are research-led, with academic staff who are actively involved in research and publishing in their specialist areas. CU researchers are playing an active role in research projects funded by government.

As a result, students can expect to be taught by lecturers who are at the forefront of knowledge in their fields. Teaching and supervision up to PhD level is available in most disciplines.

Drawing from our own expertise as well as strategic links with academic and industry partners worldwide, we have designed a range of contemporary programs to assist individuals enhance their employability and cultivate new skills. Some of the key features that make our academics unique & inspiring -

## KEY HIGHLIGHTS:

- Industry Oriented Curriculum comparable with World's top universities.
- Flexible Choice Based Credit System
- Project Based Experiential Learning
- Faculty- Student Joint Research Programs
- Advanced Technologies & Subject Integration for premium placements.

## CUTTING-EDGE RESEARCH. SERVING GLOBAL NEEDS

Research is at the core of our approach, and keeps our courses contemporary, relevant and cutting edge. From scientific experiments to the project experimentation, university accords its students to get involved in research that offers hands-on experience.

We are transforming and building intellectual talent to improve global well-being and economy by focusing on real-world challenges.

Research at CU is supported by Department of Science & Technology, here are some of the latest research areas our students and faculty are working on:-

### Renewable Energy

- Earth Powered Light
- Wind Turbine Generator

### Additive Manufacturing

- 3D Printing Technology

### Agri Engineering

- Soil Fertility
- Bio formulation
- Organic Farming
- Smart Irrigation

### Advanced Materials

- Nano composites for Core Shells

### Green Manufacturing

- Development of Effective Membranes
- Detecting Metal ions

### Biomedical Engineering

- Hyperthermia Treatment of Cancer
- Nano fillers in hybrid composites

University has invested in creating in-house world-class research facilities that match to national & international standards -

- Material Research Laboratory for characterization and synthesis
- Fuel Research Laboratory for characterization and synthesis studies
- Latest Manufacturing Technologies such as:
  - 3D Printers
  - Scanner
  - Flex Printing Machine
  - Advanced Manufacturing Lab
  - Co Axial Spinning Machine

## NATIONAL & INTERNATIONAL COMPETITIONS

Students at CU are given the opportunity to participate in various national and international competitions and research conferences. A platform to learn more about latest industry developments, compare best practices and witness the application of latest research work across different industries. You will be able to apply knowledge, showcase your research on broad platform, obtain feedback from the experts resulting in confidence boost & sharpen practical and research skills.

# INNOVATION OF THE YEAR- QUEEN BELT

FIRST OF ITS KIND, CU ENGINEERING STUDENTS HAVE DESIGNED A WOMEN SAFETY BELT - QUEEN BELT

LALITA THAKUR - Innovator & Engineering Student

## KEY HIGHLIGHTS

for Innovation Development Cell at Chandigarh University:

- INR 1 Lac per student for prototype development
- Industry Mentorship
- Patent of the product
- Seed money after successful development of product to start a startup
- Mentorship to apply for PRISM (GOI grant to support innovations)

## INNOVATOR OF WOMEN SAFETY TRIGGER & SMART BIN

### 230+ Patents successfully filed by Students & Faculty in number of fields such as

- Automobile Safety • IoT • Physiotherapy
- Self-Defense • Sanitation • Robotics • Sensors
- Materials • Waste Management

### How will you benefit?

- Gain an understanding of the factors that motivate individuals to invent, and the creative process by which individuals come up with ideas for new inventions and designs.
- Be ready for the obstacles that have to be overcome to bring an invention to market and the factors that influence the successful diffusion of an innovation into widespread use.
- Introduction to the Intellectual Property Rights domain.

Women Safety Trigger

Smart Bin

Lovelash Dutt - Innovator & Management Student

## YOUR PROFESSIONAL DEVELOPMENT

Whatever you plan after completing your degree, we offer a range of services to help you identify your options, develop your opportunities and work towards your goals from the first day.

Postgraduate study could be your ticket to a more influential and interesting career, be it in research or leadership roles. With CU you will gain more than just intellectual skills and professional knowledge; our graduates are work-ready, play an active role in the community, and globally connected.

## BUILDING YOUR CONNECTIONS

Interacting with employers can help you gain a greater understanding of your future job roles, and we provide many opportunities to meet prospective employers face to face. This can give you an insight into the skills that employers regard as the most valuable when applying for jobs or progressing your career.

- Pre- Placement sessions with employers - These give you the opportunity to clarify information what skill set your future job would require or find out more about specific companies and sectors.
- Developing employability and entrepreneurial skills - We create opportunities for you to develop skills for the job market and to compete in real-world business challenges through annual business challenges.
- Planning to move from Masters to PhD? We also provide support if you are considering progressing from a Masters to a PhD at Chandigarh University or elsewhere, offering advice and support with a careers advisor, current students and alumni network.

**(Integrated Ph.D 5 year Program after B.E./B.Tech (Admission will be made through GATE/CU Test))**

## ADDED ADVANTAGES

- Flexibility - Students can choose MOOCs courses in 2nd year and map it with credits
- Exposure - Foreign semester exchange program introduced in 2nd Year
- Internship - 1 year Internship in Industry /Research Organization in 2nd year of PG
- Personality Development classes as part of curriculum to enhance employability

# POST GRADUATE DEGREE AT CU TAKES YOU PLACES

Our Post Graduate degrees are curated to give you maximum exposure and get placed in top MNC's around the world. We Ensure that you have best opportunities available to build a successful career in your dream organization.

Manika Mangla,  
M.Sc Chemistry (Organic),  
Aurgiene Discovery

“ I had a wonderful experience at Chandigarh University, not just with the friends but also with the faculty and mentors. The mentors did more than what was required of them. ”

Anshul Bansal,  
MSc Biotechnology,  
Omics International

“ Being at CU was being under the exposure of research projects, internships, national international conferences and more. The highlight of the course for me was being taught how to apply theory to the real world. ”

Simran Sharma,  
MBA, Flipkart

“ Continuous efforts of the MBA & DCD faculty have helped me grab the placement offer of Flipkart. All through my journey, my mentors have outstandingly imparted requisite skills demanded during the recruitment process. ”

Siddharth Arora,  
MBA- Banking & Finance,  
Aditya Birla Fashion & Retail

“ The best part about the CU is the transformation it had ingrained in me. When I came here, I was an introvert person but now I can feel the change and can proudly say that whatever I invested here, I am successfully taking it back as a lifelong asset. ”

Manoti Aggarwal,  
MBA, Flipkart

“ I think CU has challenged my thinking at its broadest and has groomed me from deep within. The skills I have gained here are effectively becoming indispensable in the real world-of-work & I am really happy for that. ”

Rohit Tiwari,  
MBA – International Business,  
Ujjivan S.F.B

“ I chose CU due to its trendsetting MBA placements. When I first signed up, I was only expecting to learn about International Business at a high level. However, my expectations were exceeded when I got a chance to learn a lot more beyond it. ”

# Your Success is Our Story!

Shefali Sharma,  
M.Sc. Chemistry (Inorganic),  
Aurgiene Discovery

“ University Institute of Sciences is an excellent place for intellectual development while getting hands-on experience in research. Its M.Sc. Chemistry program prepared me well for working in an R&D environment. ”

Geet Dhingra,  
MBA Marketing & Finance,  
Danone Pvt. Ltd.

“ Well recognition of CU across the country tilted me in favour of choosing it as my MBA destination. On starting the program, I found that the academic structure offers an ideal mix of classroom studies & real-time exposure, and fittingly bridges gap between both. ”

Yamini Panta,  
MBA (Business Analytics),  
HDFC Bank

“ I found the decision to study at CU as one among the best of my life. Experienced faculties, approachable management, and extensive practical exposure are the assets of this university that have helped us all through. ”

Digbijay Chaudhary,  
MBA (Business Analytics),  
Bandhan Bank

“ Excellent Faculty members and a great placement team. Learning by doing approach is an added advantage here. Big thanks to CU. ”

MANNAT THAKUR  
M.Sc. Chemistry (INORGANIC)  
Aurgiene Discovery

When I began my studies at CU, I did not know what major I wanted to pursue. Everything changed after I started interacting with faculty. The class environment was so friendly and size was small, so I easily got my professors' attention.

# YOUR SECOND CAREER COULD BE OF AN ENTREPRENEUR

## Chandigarh University- Technology Business Incubator

We at Chandigarh University, open new path for you to become your own boss and invest in your future early on. We have helped students graduate as business owner, this could be your start too!

51 Startups  
running  
successfully

7 Startups  
India  
recognitions

5 Companies  
with turnover  
20 lacs and  
more

## Startup facilities only at CU-TBI

- 18 months free incubation period
- Industry mentorship
- Company Registration and Launch
- Marketing support

## Seed Funding Support

- Loan Support - MUDRA, SIDBI, MSME
- Investor Summits
- Startup India Registration Support
- Angel Investor Individual Meets

After joining CU, I immediately registered myself with Chandigarh University - Technology Business Incubator (TBI). It's only because of TBI that I was able to get my patents register and launch my product in the market. Now I own 3 stores and are supported by Industry

- TIRLOK SINGH,  
Budding Entrepreneur, Gearr Technologies

# INDUSTRY IS OUR PARTNER IN YOUR SUCCESS

## Multifaceted Industry Sponsored Labs & Collaborations

### For Computer Science and Information Technology

### For Biotechnology, Petroleum and Chemical

### For Other Engineering Streams

“Industry led programs help us develop multiple skills such as social media marketing, content marketing, organising seminars, taking workshops etc. And the most interesting part is we even get to earn rewards such as cash incentives, gift vouchers, and even some cool merchandises”  
 Vaibhav Sahni,  
 Adobe Campus Ambassador

“Chandigarh University has given me an astonishing platform for overall growth and development. The campus has an excellent infrastructure with industry-sponsored labs and is very beautiful with a perfect blend of nature and student-friendly amenities.”  
 Surbhi Gupta,  
 Placed in Microsoft

“The engineering programs at CU has a practical focus. It’s really great to find industry-sponsored labs within the campus which lets you get hands-on with industry tools.”  
 Girish Mehta, Placed in IBM |  
 Sapient | ITC Infotech

## MUCH MORE THAN JUST INDUSTRY ALLIANCES, OUR STUDENTS GET FIRST-HAND EXPOSURE THROUGH

### Corporate Mentoring

CU holds professional engineering lecture sessions via industry members, these insightful lectures offer students peek into a real-life engineering industry and what is expected of them.

### Pre-placement Sessions

To be successful, you need to know the audience, with these sessions' students get to know of what skills are important to get placed in their dream company.

### Industry Internships

Our students learn in real-world environment through organized industry internships that allow them to understand the practical application of the engineering education. These internships are a great way to network in the chosen field that eventually reflects on your resume during final placements.

# INDUSTRY LEADERS ARE WITH US EVERY STEP OF THE WAY!

Director, Talent Acquisition,  
 Hewlett Packard Enterprise

I like the fact that CU has brought so many Industry Leaders on one platform and is using our expertise to make it a futuristic center of learning.

Head HR, Hyundai Construction  
 Equipment Pvt. Ltd.

CU is definitely doing something different at Industry interface level and I feel privileged to be part of CAB.

VP, Software Development  
 & Delivery, Oracle India

I am impressed with the University, what I really like is that CU is including industry on every level and is aligning itself to our expectations.

Chief HR, Hero Motocorp

CU has taken the concept of advisory board to next level; industry suggestions are weaved in the system transparently which result-oriented.

Sr. VP- HR, Reliance  
 Group (Oil & Gas)

I am really happy and surprised, such initiatives are usually not in many institutions, my compliments to the management.

Head of HR, Suraj Chettri-  
 AIRBUS India

What I see here remarkable as compared to other universities is the active involvement of students in deciding what is right, what is wrong and what is indifferent.

# CAREERS HAVE GONE GLOBAL, SO SHOULD YOU!

Chandigarh University has more than 200 international university partners across 50 countries, which means that you will have a global learning advantage. Uniquely designed programs specifically for post-graduate students gives you a unique advantage and career boost.

Here are some excellent programs specifically for PG Students at CU:

## Master Degree (1+1) option

- USA: Arkansas State University, University North Alabama, University of District Columbia, Florida State University.
- UK: Glasgow Caledonia University, Birmingham City University

## Internship Opportunities

Europe, Malaysia, USA

## Semester Exchange Option

Europe, Australia, USA, South Korea, Thailand

## Scholarship Opportunities

Europe, Commonwealth Countries, Thailand, South Korea

In the journey of life, we need to improve ourselves as a person, which can be very well done by exploring. We should be opportunist by grabbing all that comes our way. It's not only about experiencing different education patterns but, also evaluating the various cultures, traditions b- lifestyles practiced by people worldwide.

**SHRUTI THAKUR**- LLM (Master of Law)  
University of Lodz POLAND

# WHICH PROGRAM TO CHOOSE?

We recognize that in an increasingly fast-paced world, flexibility in terms of how and where you undertake your studies is important. Our portfolio of programs offers a modern solution for today's postgraduate students.

## STUDY OPTIONS

### Engineering

- Master of Engineering - AME/CE/CSE/ECE/EE/IT/ME
- Master of Engineering- CSE (Artificial Intelligence & Machine Learning)
- Master of Engineering - Civil Engineering (Transportation Engineering / Construction Technology & Management (CTM)/ Environment Engineering / Structural Engineering)

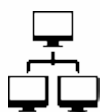

### Business Management

- Masters of Business Administration ( Business Analytics) in association with IBM
- Master of Business Administration (Banking and Financial Engineering) in association with ICICI Direct, Tally and Finacle
- Masters of Business Administration (Strategic HR) in association with SHRM
- Master of Business Administration (HR/Finance/Marketing/IT/ International Business)
- Master of Business Administration (Tourism & Hospitality Management)

## Commerce

- Master of Commerce (Hons.)

## Computer Applications

- Master of Computer Application
- Master of Computer Application - Lateral Entry

## Sciences

- Master of Science (Industrial Microbiology)
- Master of Science (Clinical Psychology)
- Master of Science (Forensic Science and Technology)
- Master of Science (Forensic Science and Technology) Lateral Entry
- Master of Science (Biotechnology)

# OUR PRESTIGIOUS COURSES

## in Liberal Arts and Humanities

The Global Fellowship Program (GFP) aims to nurture prospective leaders with an ability to think creatively and critically with empathy for diverse human existence.

This is a multi-disciplinary, fully-residential two-year postgraduate degree program with a provision of availing a diploma after completion of the first year.

For more details and program info log on : [gfp.cuchd.in](http://gfp.cuchd.in)

## Applied Science

- Master of Science (Economics)
- Master of Science (Mathematics)
- Master of Science (Physics)
- Master of Science (Chemistry)
- Master of Science (Agronomy)

## Humanities

- Master of Science (Animation & Multimedia Technology)
- Master of Law (LLM)
- Master of Arts (Journalism & Mass Communication)
- Master of Arts (English)
- Master of Arts (Psychology)
- Master of Arts (Performing Arts)

# MBA<sup>-STRATEGIC HR</sup>

A unique MBA – Strategic HR equip students with the know-how and skills required to become better entry level HR professionals in the industry. The curriculum has been designed & delivered in association with SHRM (Society for Human Resource Management), the world's largest professional HR body. On successful completion of the program, students will be awarded MBA (Strategic HR) degree by Chandigarh University & will also have the opportunity to take the certification exam to get SHRM Global Certification.

For more details and program info log on : [www.cuchd.in/shrm](http://www.cuchd.in/shrm)

**YOU'LL DO MORE THAN STUDY!**
