# Testimonials

As a diligent law student at Alliance University, the Office of Career Advancement and Networking (CAN) has played an instrumental role in shaping my professional journey. Their unwavering commitment to fostering connections and providing valuable opportunities has been a cornerstone of my success. Through their dedicated efforts, I secured an assessment internship opportunity at Origiin IP Solutions LLP. I am immensely grateful for the support and guidance I received from the CAN office, which has undoubtedly been pivotal in shaping my professional growth.

My five years at Alliance School of Law is a memory I would cherish throughout my life. The environment provided made us want to go and learn. Furthermore, the professors were nothing short of kind and helpful. The attitude they have is what makes Alliance School of Law stand out. Opportunities to develop skills were presented to us time and again. The regular interaction with people around, the professors, the Dean, and the placement cell helped in understanding the path I needed to approach.

Five years at Alliance School of Law have been an invaluable experience of learning and growing. Learning always extended beyond the classrooms to prepare us for the real-world. The additional efforts taken by the professors has shaped my career in ways more than I had ever imagined. Understanding that the ground reality is far from what we study sitting in the classrooms and recognising that there are certain gaps that have to be filled has changed my perspective and has prepared me for the reality that awaits outside of law school.
