Vision

- To be the first choice of students and employers in Vocational Skill Industry.

Mission

- To impart best in class vocational skills to the students with industry ready courses, state of the art labs and trained faculty.
- Build a strong eco-system to ensure employability & entrepreneurship development of students.

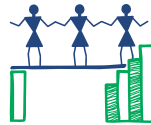

Our Values

Ethical
Business
Practices

Instant & Accurate

Innovation

A Leading Vocational Training Institute

Established in 1967, Kohinoor Technical Institute (KTI) is a pioneer in vocational training for technical courses. KTI has a vision to empower the young workforce of India by imparting skills that are Government Approved and Industry Ready. KTI does this by imparting quality technical education that is focused on employment.

KTI started with a single centre at Dadar in Mumbai, and has now grown into a national network of over 70 Centres across 6 states – Maharashtra, Gujarat, West Bengal, Madhya Pradesh, Rajasthan and Telangana - and was awarded as the Best Institute With Innovation In Skill Development at the BBC Knowledge Education Leadership Awards in 2017. KTI provides value-based empowering education that works to deliver employment and entrepreneurship to the rural India via technical vocational education.

Today, KTI trains students across multiple sectors like Automobile, Mechanical, Mobile & Smartphone repair, Electrical, Turner fitter, Computer Software, Hardware & Networking, Healthcare, Fashion Designing, Plumbing, Beautician, AC & Refrigeration and Electronics and is appointed as the Nodal Training partner in 9 constituencies by NSDC.

Creating recognised and certified Skilled Professionals

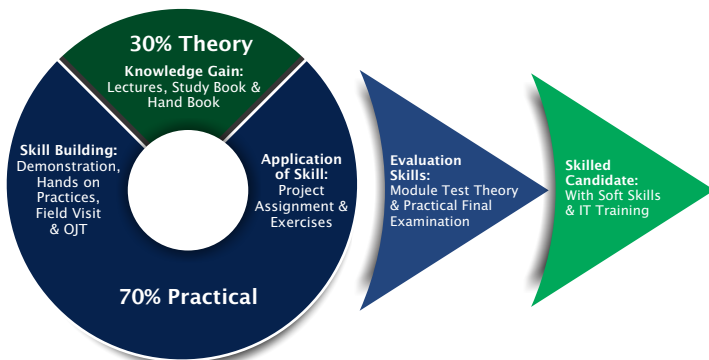

Accredited and affiliated to the National Skill Development Corporation of India (NSDC) and Sector Skill Councils, KTI focuses on providing skilled professionals to meet the rising industry demand.

KTI's Training Methodology

KTI's robust Learning Approach

At KTI, above everything else, we believe experiential learning is a far more qualitative way of learning than simply a base in theory supplemented at a later stage with a few practical sessions. Hence, our training programs are not just comprehensive; they cater to an all-round learning experience with fewer gaps between theory and application. The trainers from the very beginning focus on applying theory to practice so that the skill is not just industry-ready but application-ready as well.

Additional Practical Experience Through Activities

At KTI, we have gone one step further in making learning more engaging & comprehensive – classroom theory based learning, lab based practical learning & now additional student activities to add to the practical knowledge. Every month, the students get to participate in various exercises which help them add to their knowledge – for a holistic learning experience.

Student Activities at the branches include:

- Practical Week
- TechXibition (National Level Technical Exhibition & Competition)
- Skill Carnival on 'World Youth Skill Day'
- Fashionista – KTI Annual Fashion Show
- Market Study of materials & products
- Safety First Program
- Know Your Trade – creative learning program
- 5 ways Placement
- Problem solving competition
- Technical treasure hunt & many more...

Placement Readiness

- Industry & Field visits
- Mock interview
- Personality development
- Guest lectures by industry experts
- Communication skills development
- Interview handling seminar
- Campus interview

Digital Literacy

- Basics of Internet
- Social Media Basics
- Computer, Smart phone & other devices
- e-Commerce

Life Skills

- Skills at workplace
- Personal growth
- Social skills

Foundation Courses

Information on other interconnected courses

Interactive Sessions

Information on advanced technology using audio video projections

Community Skills

- Human values
- Yoga
- Art of living
- Community sessions

Entrepreneurial Awareness Program

Expert guidance sessions on starting own business with KTI Skills

Special features of KTI

- 60 plus years in skill development education
- 5 lac plus students trained
- Course Structure - 70% practical and 30% theory
- Hands on Practical with industrial partner premises
- Guest lecture from Industrial expert
- Certification of Industry partner
- 100% Placement Assistance
- Tie up with 2000 plus companies
- 3 lac plus students placed in various sector
- Loan facility for skill education and Entrepreneurship

Conditions apply. Available at select centers only. Graphic visuals are for representational purpose only.

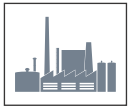

KTI's Value Added Training

100% Placement Assistance

KTI courses include training on core Technical Skill in the trade of your choice, followed by focused assistance in placement as well. Our team of Placement experts will spend quality time with you and train you on every aspect that will help you get the job after your training.

Placement assistance at KTI includes the below sessions:

Industry Visits

Mock Interviews

Guest Lectures by Industry Experts

Campus Placements

Parent Teacher Meet

Communication & Personality Development

Placement Tie-ups

KTI students get absorbed by some of the best companies in the industry-giving them a good start in their career. With comprehensive training in Core Technical skills, & non technical skills, the students excel in the campus interview bagging some of the best job roles in the industry.

Some of the Companies with whom KTI has tie-up with

- Paggio Vehicles Pvt. Ltd.
- Philips India Ltd.
- Reliance Digital
- Sony Electronics
- Emerson Network Power
- Reliance Communication
- CMS IT Services
- Godrej & Boyce Mfg. Co. Ltd.
- Cummins Generator Technologies India
- Trimax It Infrastructure and Services Ltd
- Mcdonalds Family Restaurants Pvt. Ltd
- Infobahn Technical Solutions (I) Pvt. Ltd
- Godrej Appliances
- Reliance Resq-Slp
- Haier Appliances Ltd
- Rothe Erde India Pvt. Ltd.
- Serco Global Services
- Finolex
- Sandvik Asia Limited
- Klassic Mobiles
- Blue Star Limited
- Mahindra & Mahindra Ltd.
- Thermolab India Pvt. Ltd.
- and many more....

Electrical

Diploma in Electrical Engineering Services (DEL) 12 Months

Accessories, basic electricity , Polarity testing, series and parallel wiring, different wiring practices, ISI safety, wiring types, AC and DC generator and motor, transformer, working-testing-repairing of home appliances , basic lift concepts , motor rewinding practices , water supply pump operations and troubleshooting , solar light system applications and Installation , Industrial Electrical , Power transmission and distribution system, Substation, Power distribution

Certificate Course in Electrical Services (CEL3) 6 Months

Certificate Course in Electrical Wireman's Trade (CEL1) 3 Months

Certificate Course in Home Appliances Repairing (CEL4) 2 Months

CAREER OPPORTUNITIES :

- Residential and Commercial Wiring
- Repairing of home appliances
- Assembly line operator in manufacturing company
- Installation & maintenance of industrial panel boards

Sectors with Job Opportunities

- Electrical Section of Industry
- Electrical / Solar Equipment Outlets
- Construction Site as Electrician
- Industries & Workshop as Equipment Tester
- Escalator & Elevator Industry
- Own Workshop
- Freelancing in Electrical Layout Designing

Advance Diploma in Electrical Engineering Services (ADEL)

DURATION : Total Duration-800 hrs (12 month) Session Duration-3 Hrs. every day

ELIGIBILITY : Minimum 12th pass / Graduates / Undergraduates candidates
In case of 10th pass , 3 + years of experience in relevant field

OBJECTIVE :

- To study different types of Electrical component & connection(House-hold, Industrial)
- To develop skills on Inspection & repair of Electrical home appliances
- To develop skills to make different types of Industrial Electrical connections
- To develop skills on testing of electrical equipment
- To develop programming skills on Programmable Logic Controller (PLC)
- To develop skill in Auto CAD for layout designing of electrical wiring

COURSE CONTENTS :

- Electrical Wiring
- Basics of Electrical
- Engineering Services
- Water Supply Pumping
- Drafting Standards
- Solar Light System
- Introduction to Industrial
- Electrical Concepts
- Switchgear & Protection
- Industrial Electronics
- Programmable Logic Controller (PLC)
- AutoCAD for Electrical
- Power Generation, Transmission & Distribution System
- Elevators / Lifts & escalators, Sensors & Transducers
- Security Systems

CAREER OPPORTUNITIES :

- Electrician
- Solar Technician
- Technician / Trainer
- Control panel Technician
- PLC operator / Programmer
- Electrical Layout Designer
- Elevators & Escalators Technician
- Electrical Concepts
- Switchgear & Protection
- Industrial Electronics
- Industrial Electrical Maintenance
- Industrial Electrical Equipment Tester
- Security system Technician
- Self-employed in above segments

VALUE ADDED CERTIFICATE

- AutoCAD certificate by CADD Center
- PLC & SCADA certificate by Sage Automation / Live Wire
- Elevators / Lifts & escalators certificate by Smash Elevators

Sectors with Job Opportunities

- Electrical Section of Industry
- Electrical / Solar Equipment Outlets
- Construction Site as Electrician
- Industries & Workshop as Equipment Tester
- Escalator & Elevator Industry
- Own Workshop
- Freelancing in Electrical Layout Designing

Automobile

Diploma in Automobile Engineering Services (DA) 12 Months

Fundamentals, safety & first aid, tools & equipment, petrol engine, diesel engine, Dismantling, cleaning & servicing of petrol & diesel engine, valve mechanism, engine breathing system, cooling system, lubrication system, fuel supply system, ignition system, CNG, LPG, EV, assembling & dismantling engine, overhauling, servicing of automobile, engine support systems, automotive electrical & electronics, AC in automobile, troubleshoot & repairing of car AC, fundamentals of engineering drawing, accident & pre-delivery inspection

Certificate Course in Two Wheeler Servicing (CA1) 3 Months

Certificate Course in Four Wheeler Servicing (CA2) 6 Months

CAREER OPPORTUNITIES :

- Own Garage
- Auto dealer & Sales
- Automobile service station
- Assembly line operator in automobile Manufacturing Industry

Sectors with Job Opportunities

- Servicing dept. / Mfg. dept.
- QC Dept. of Automobile Industry
- Automobile Garage
- Automobile Service Stations
- Auto Dealers and sales Outlets
- Insurance Company
- Own shop / Own garage
- Own Service Center
- Freelancing in AutoCAD

Advance Diploma in Automobile Engineering Services (ADA)

DURATION : Total Duration-800 hrs.(12 month), Session Duration-3 Hrs. every day

ELIGIBILITY : Minimum 12th pass / Graduates / Undergraduates candidates
In case of 10th pass , 3 + years of experience in relevant field

OBJECTIVE :

- To understand body framework of vehicle
- To know about alternative fuel vehicles.
- To know different engine systems in an automobile
- To develop skills on automobile maintenance, repair & servicing.
- To develop skills on electrical & electronic parts repair & maintenance
- To understand denting & painting procedures.
- To know Henkel solutions for vehicle repair & maintenance
- To learn modeling & designing in Auto Cad
- To understand construction & functions of different components of automobile engines.

COURSE CONTENTS :

- Fundamentals of automotive Technology
- Automotive Engines Systems
- Engine Support Systems
- Denting - Painting & Welding
- Accident & Vehicle pre-delivery
- Air-Conditioning in Automobiles
- Advanced Automobile Systems
- Immobilizer System
- Electric Vehicle
- Henkel solutions for Vehicle Repair & Maintenance (External)
- Automotive Electricals & Electronics
- Inspection Drafting Standards
- Computer Aided Design (AutoCAD)

CAREER OPPORTUNITIES :

- Auto Mechanic
- Service Supervisor
- Vehicle Inspector
- Automotive Electrician
- Auto Designer
- EV Technician
- Automobile Service Adviser
- Auto body repair technician
- Automobile Sales Representative
- Insurance Agent for Automobile
- Quality testing Engineer
- Automobile Service Technician
- Self Employed in above segments

Value Added Certificate

- Auto CAD Certificate by CADD Centre
- EV Certificate by GOGOAI
- Henkel Certificate by Henkel

Sectors with Job Opportunities

- Servicing dept. / Mfg. dept.
- QC Dept. of Automobile Industry
- Automobile Garage
- Automobile Service Stations
- Auto Dealers and sales Outlets
- Insurance Company
- Own shop / Own garage
- Own Service Center
- Freelancing in AutoCAD

AC & Refrigeration

Diploma in Air-conditioning & Refrigeration Services (DAR) 12 Months

Fundamentals of Refrigeration, inverter technology, basic science & physics, properties of air, basic electricity and electronics, ODP, GWP, compressor, condenser, cooling tower, evaporator, refrigerant control device, system support accessories, lubrication, refrigerant, ASHRAE, ISHRAE, wiring of refrigerator & AC, vacuuming & gas charging, body work & gasket cutting, Troubleshooting of Refrigerator & AC, commercial refrigeration systems, HVAC system concepts

Certificate Course in AC & Refrigeration Services (CAR) 6 Months

CAREER OPPORTUNITIES :

- Repairing & preventive
- Maintenance of refrigerators, air-conditioners
- Sales of refrigerators, air-conditioners
- Assembly & testing of refrigerators & air- conditioners & air-conditioners in manufacturing companies

Sectors with Job Opportunities

- Refrigerator & Air-conditioner Assembly Department or Retail shop
- Refrigerator & Air-conditioner HVAC Installation Contractor in Construction Companies
- Food Wholesalers/Pharmaceutical Companies/Chemical Industry for Cold Chain Transport/Engineering firm
- Refrigerated Transport Service Provider
- Railways (On contractual basis) for AC Maintenance
- Freelancing

Advance Diploma in AC & Refrigeration Services (ADAR)

DURATION : Total Duration-800 hrs.(12 month), Session Duration-3 Hrs. every day

ELIGIBILITY : Minimum 12th pass / Graduates / Undergraduates candidates
In case of 10th pass , 3 + years of experience in relevant field

OBJECTIVE :

- To develop skills on domestic & commercial Refrigeration Systems repairing & maintenance
- To develop skills on domestic & commercial Air conditioning system repairing & maintenance
- To develop skill on designing in Revit MEP
- To know about Railway Air conditioning system
- To get familiarized with concepts and working of cold chain
- To understand the functioning of district cooling systems
- To understand process of centralized air condition systems

COURSE CONTENTS :

- Basics of Refrigeration & Air-Conditioning
- Refrigeration Systems
- Air-conditioning Systems
- Commercial Refrigerators
- Engineering Drawing
- Refrigeration System Components
- AutoCAD & Revit MEP Cold Chain
- Centralized Air Conditioning System
- District Cooling System (DCS)
- Railway Air Conditioning System

CAREER OPPORTUNITIES :

- Domestic Refrigerator & Air Conditioner Technician
- Air Conditioner Installation / un-installation Expert
- Domestic Refrigerator & Air Conditioner Technician
- Commercial Refrigerator/ Air Conditioner Technician
- RAC Assembly Operator/ Trainer / Technician
- HVAC Technician/Installation Car AC Technician
- Sales Manager/Executive in shops/Malls
- Refrigerated Transport Service Centers
- Cold Warehouse Manager/Logistic Manager
- AC Technician in Railways
- Self Employed

Value Added Certification :

- AutoCAD certificate by CADD Center

Sectors with Job Opportunities

- Refrigerator & Air-conditioner Assembly Department or Retail shop
- Refrigerator & Air-conditioner HVAC Installation Contractor in Construction Companies
- Food Wholesalers/Pharmaceutical Companies/Chemical Industry for
- Cold Chain Transport/Engineering firm
- Refrigerated Transport Service Provider
- Railways (On contractual basis) for AC Maintenance
- Freelancing

Fashion Designing

Diploma in Fashion Designing (DF) 12 Months

Fundamental of Fashion designing, Sketching, Illustration, Accessories design, Hand embroidery, Machine embroidery, Fabric painting, Textile design, Garment care, commercial production process, tools & equipment required for stitching, drafting & pattern making, sample garment making, merchandising and management, designing in Corel Draw and Illustrator

Certificate Course in Advance tailoring - (CADD) 6 months

Certificate Course in Basic Tailoring - (CT) 3 months

CAREER OPPORTUNITIES :

- Own fashion boutique
- Tailoring
- Freelancing for fashion boutiques
- Sales for a Big garment Export house or Garment manufacturing unit

Sectors with Job Opportunities

- Garment Industry
- Fashion Industry
- Entertainment Industry
- Textile Industry
- Fashion Retail Outlets
- Fashion Journalism
- Clothing Brands
- Boutiques
- Fashion Design Training Institutes

Advance Diploma in Fashion Technology & Business Management (ADFB)

DURATION : Total Duration-800 hrs.(12 month), Session Duration-3 Hrs. every day

ELIGIBILITY : Minimum 12th pass / Graduates / Undergraduates candidates with basic tailoring certificate or 1+ year experience in tailoring
In case of 10th pass, candidate must have 3+ experience in tailoring

OBJECTIVE :

- To build strong foundation in garment designing and ability to represent it in the form of sketch and illustrations
- To convert own design into a product / garment
- To be able to estimate & decide the cost of garment
- To understand export procedure & documentation
- To understand visual merchandising concepts
- To develop an art of presenting product creatively
- To be able to create garment designs using computer application
- To develop skills required to study existing market and market trends
- To develop portfolio to showcase knowledge & skills
- To develop effective communication skill

COURSE CONTENTS :

- | | | | |
|------------------------------------|--|---------------------------------------|--|
| • Fundamentals of Fashion | • Techniques of Fashion Designing | • Fashion Marketing and Merchandising | • Computer Application in Garment Industry |
| • Designing and Tailoring | • Pattern Making and Garment construction (PMGC) | • Visual Merchandising | • Common / Essential Business Skills |
| • Fashion Illustration | | • Apparel Management | |
| • Surface Ornamentation Techniques | | | |

CAREER OPPORTUNITIES :

- | | | | |
|-----------------------|------------------------|-----------------------------------|---------------------------------------|
| • Fashion Designer | • Fashion Consultant | • Fashion Blog-writer | • Fashion Design Instructor / Trainer |
| • Fashion Illustrator | • Fashion Merchandiser | • Apparel Costing Manager | |
| • Fashion Coordinator | • Visual Merchandiser | • Boutique Manager | |
| • Fashion Stylist | • Textile Designer | • Self-employed in above segments | |

Sectors with Job Opportunities

- Garment Industry
- Fashion Industry
- Entertainment Industry
- Textile Industry
- Fashion Retail Outlets
- Fashion Journalism
- Clothing Brands
- Boutiques
- Fashion Design Training Institutes

Smartphone & Mobile Repairing

Certificate Course In Smart phone Repairing (CM1) 2 Months

Symbols and abbreviation, Tools, measuring instruments, basic electronics, soldering and de-soldering, battery boosting, GSM architecture, OS, Displays & touch screens, PCB tracing, cold and hot testing, mobile assembly and disassembling, hardware troubleshooting, software troubleshooting

CAREER OPPORTUNITIES :

- Technician at Service centre / Company
- Sales of mobile phone or parts
- Freelance repair
- Assembling of Mobile phone in manufacturing company

Sectors with Job Opportunities

- Sales & Services
- Manufacturing Industry
- Mobile Technician

Electronics

Diploma In Electronics Engineering Services (DE) 12 Months

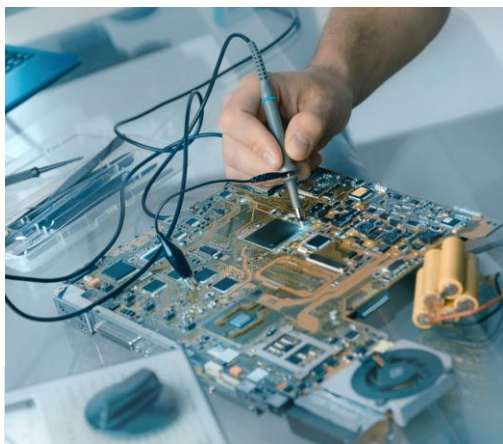

Basic theory, electronic components, soldering and de-soldering practice, circuits, electronics material and components, circuits using semiconductor, inverter, UPS, PCB technology, repair and troubleshoot electronic home appliance PCB, types of IC, study and projects on IC555, LCD, LED, Smart TV, HD TV, 4K TV, OLED and QLED, logic board fault finding, TV repair, assembling and testing of multimedia systems, Set Top Box, CCTV, digital electronics, LEDs, Sensors, Basics of Arduino, microcontrollers and microprocessors

CAREER OPPORTUNITIES :

- Repairing of electronic goods
- Assembly & testing of electronic goods in manufacturing companies
- Technician
- Sales of electronic goods

Sectors with Job Opportunities

- Electronic Appliances Repairing Shop
- Sales
- Manufacturing Industry
- IT Companies
- Communication & Telecommunication Small & Medium Scale Organization
- Educational Institutes
- MNC

Computer Hardware & Networking

Certificate Course in Laptop Repairing (CLP) 2 Months

Certificate Course in Networking (CCN) 6 Months

Certificate Course in Hardware (CCH) 6 Months

Diploma in Computer Hardware & Networking (DCHN) 10 Months

Basic electronics, measuring instrument, basic electrical, number system, IC, motherboard, processor, memory, storage devices, peripheral devices, SMPS, printers, scanners, BIOS, PC assembly and troubleshooting, OS installation and upgrade, User accounts management, windows troubleshooting, backup and recovery, Network architecture and protocols, LAN, remote desktop access tools, Routing and switching, network management

Diploma in Computer Hardware and Networking with Windows Server Specialization (DCHNW) 12 Months

DCHN + types of server, hardware requirement, ADDS, Disk management, DHCP, DNS, DS, file server, configuration of server, network load balancing, virtual machine, deploying and admin AD, FD RMS, disaster recovery

Diploma in Computer Hardware and Networking with Linux Specialization (DCHNL) 12 Months

DCHN+Linux OS, file system, basic commands & utilities, manage local user & group, storage management, network configuration in Linux, monitor processes, configure SSH, storelogs, install update software package.

CAREER OPPORTUNITIES :

- Cyber Cafe's
- Telecom sectors
- BPO's in Technical Support
- Server maintenance in MNC
- Windows Server Admin Industry for Technical Support
- 3rd party maintenance vendors
- Small & Medium Scale Organization
- Educational Institutes - Computer Lab

Sectors with Job Opportunities

- Breakdown maintenance of computers for companies as well as individuals
- Computer Assembling
- Technical support in Organisation
- 'Sysadmin' in MNS
- 3rd party maintenance vendors
- Educational Institutes- Computer Labs maintenance

Computer Software

Diploma in Computer Application with Web Designing (DCAW) 10 months

Computer fundamentals, MS - office, Ms-Outlook, Internet, web designing concepts, managing contents, HTML & DHTML, CSS, incorporating CSS in HTML, java script, Bootstrap, project in HTML with CSS, Adobe Photoshop, concepts, Dream weaver concepts, JQuery, Flash basics, website maintenance & deployment

Diploma in Computer Application with Graphics Designing (DCAG) 10 months

Computer fundamentals, MS-office, Ms-Outlook, Internet, Graphics Designing Concepts, Sketching, Drawing, Color Theory, Layout Design, Calligraphy & Typography, Adobe Photoshop, Corel Draw, Illustrator, Light room, Flash

Diploma in Computer Application Financial Accounting (DCAF) 10 months

Computer fundamentals, MS - office, Ms - Outlook, Internet, mathematical function in excel, statistical functions, financial function, logical function, filters, consolidate table, interest calculations, tally fundamentals, Basics of accounting, vouchers, ledgers, registers, balancesheet, payroll, depreciation entries, TDS, GST concepts, business and online accounting, MIS, Introduction to SAP

CAREER OPPORTUNITIES :

- Web Designer
- UI Designer
- Graphics Designer
- Layout / Logo Designer
- Web developer
- Technology architect
- UI designer

Sectors with Job Opportunities

- Education
- Publishing
- Electronic Media
- Advertising Firm
- Freelancing
- In any Industry in accounts dept.
- Finance, Banking & Insurance
- Small & Medium Scale Organization
- Public Relation Firms

Computer Software

Diploma in Computer Software with .NET Specialization (DCSN) 12 months

Computer fundamental, Microsoft windows, MS office, fundamentals of C, control statement, functions, arrays, pointers, string, structure, union, file operation and management, OOPS concepts, classes in C++, operator overloading, initialization and assignment, inheritance, polymorphism, storage management, exception handling, templates, data structures, RDBMS, NET programming, windows application in c#, introduction to XML, web application in C#, ASP.NET

Diploma in Computer Software with JAVA Specialization (DCSJ) 10 months

Computer fundamental, Microsoft windows, MS office, Programming in C, OOPs with C++, Data structures, RDBMS, Core Java, Advance Java

CAREER OPPORTUNITIES :

- Windows application developer
- Android application developer
- ios developer
- Application developer
- Software developer
- Web developer
- Tester

Sectors with Job Opportunities

- Software Development company
- Small & Medium scale Organization
- Web developer
- Freelancing In any Industry in IT

Animation

Certificate Course in Graphics Designing (CGD) 3 months

Diploma in 3D Animation & Graphics (DAG) 12 Months

Fundamentals of graphic Design, Corel Draw, Illustrator, Photoshop, Logo Designing, Cartoon character, Package Designing, 2D animation and editing, Flash, character drawing, movie clip , working with scene and sounds, 3D modeling & animation, 3DS MAX, shading and texturing, lighting and rendering, basic MAYA, introduction to VFX and NUKE, after effects, creating news

CAREER OPPORTUNITIES :

- Film Director
- Texture Artist
- 3D Animator
- Product Designer
- Compositor
- Art Director
- CG Artist
- Modelling Artist
- Creative Consultant
- Comics Illustrator
- Illustrator
- Skinning & Rigging Artist
- Interactive Game Developer
- Color Correction Artist

Sectors with Job Opportunities

- Freelancing
- Designing Studio / Agencies
- Print Media
- Editing
- Animation

Mechanical Workshop Skills

Diploma in Mechanical Engineering Services (DM) 1 Years

Safety & First Aid, Workshop Tools and Equipment, Engineering Drawing, Pictorial and Orthographic Projection, Conics, Curves & Solid Geometry, Development of Sections, Workshop Calculations, Knurling, Reamers, Shaping Machine and its use, Milling Machine and its use, Fitting work, Turning, Drilling and Threading, Grinding Machine & its use, Lathe Machine & its use & Maintenance, Introduction to CNC Programming & CNC Tooling, Assignments & Soft Skills.

- **Certificate In Turner - Fitter Trade (CW1) - 6 months**
Certificate In Mechanical Draughtsmanship (CW3) - 6 Months
- **Certificate In Welding Trade (CW5) - 6 Months**
- **Certificate In AutoCAD (CAD) - 3 Months**
- **Certificate In CNC Lathe Operation (CW7) - 3 Months**
- **Certificate In CNC Programming (CW4) - 2 Months**

CAREER OPPORTUNITIES :

- Lathe machine operation in an engineering workshop
- Sheet metal fabrication in a fabrication workshop
- Machine operation &
- Mechanical maintenance in manufacturing companies

Sectors with Job Opportunities

- Manufacturing Industry
- Mechanical Service Station
- Any Manufacturing Workshop
- Own Workshop

Beautician

Certificate course in Beautician - (CO4)

NSDC Approved Job Role - Assistance Beauty Therapist

Facial beauty treatments, Hands and legs beauty treatments, Hair coloring, Cutting and other Beauty treatments, Make up, Saree draping and Mehendi arts

Certificate course in Advance Beautician - (CO7)

Advance Facial, Machine Treatment, Advance Hair Cut, Skin and Dandruff Treatment, Hair Perming and Straightening, SPA, Advance Make-up

CAREER OPPORTUNITIES :

- Beauty Therapist
- Sales consultant at Cosmetic Firm
- Beauticians at marriage / TV / Film performance
- Hair Stylist
- Beauty Advisors at Cosmetic firm

Sectors with Job Opportunities

- Beauty Salons
- TV and Film Industry
- Modeling Agencies
- Self Employed

Kohinoor College of Paramedical Sciences, a division of KTI
offers 2 Years Advanced Diploma in following mentioned courses

Advance Diploma in Medical Lab Technology (ADMLT) 2 years

Blood tests, Urine tests, basic biochemistry profile like liver, Kidney, cardiac, and also advance tests like Histopathology techniques, Immunology etc. - To train students to work as laboratory technicians & assist pathologists in their duties. After completion of this course student can get placed into Pathology dept. or Diagnostic centers

Advance Diploma in Medical Imaging Technology (ADMIT) 2 years

Basic of Imaging, Handling of Imaging equipment, X-ray, CT, MRI, & Mammography - To train students to work as radiography technicians & assist Radiologists in their duties. After completion of this course student can get placed into Radiology dept. or Imaging Centers

Advance Diploma in Anesthesia & Critical Care technology (ADACT) 2 years

Anesthesia Equipment, Anesthesia machine handling, assisting anesthetist, Preoperative & Post operative care and handling complications. - To train students to work as Anesthesia & Critical Care Technicians & assist the Anesthetist in their duties. After completion of this course student can be placed either into OT or Critical Care areas

CAREER OPPORTUNITIES :

- Assistant Medical Lab Technician • Blood Bank Technician • Asst. X-Ray Technician • MRI Technician
- Histopath Technician • Microbiology Technician • CT Scan Technician
- Executive - AR & Medical Billing • Ultrasonography Technician • Mammography Technician
- Assistant OT Technician • Anesthesia Technician • Critical Care Technician

Sectors with Job Opportunities

- Pathology lab
- Diagnostic centers
- Hospitals
- Pharmaceutical companies
- Research centers
- Nursing home

Paramedical

Advance Diploma in Renal Dialysis (ADRD) 2 years

Dialysis techniques, Dialysis Machine, Dialysis Equipment, Patient monitoring, Handling Complications - To train students to work as Dialysis Technicians and assist Nephrologists in their duties. After completion of this course student can get placed into Renal Dialysis Center.

Advance Diploma in Optometry & Ophthalmic techniques (ADOPT) 2 years

Refraction errors, finding spectacles number, Visual Optics, assisting in eye procedures or surgeries etc. - To train students to work on visual optics & assist in eye procedures or surgeries. After completion of this course student can get placed into Eye clinic or Eye hospitals or Open Opticians Shop

Advance Diploma in Medical Record Science (ADMRS) 2 years

Hospital Back Office, record keeping, convert patient file into soft copy & feed in software, code, compress & save for future, & retrieval of same if needed in future, Medical Coding, Medical record analysis at higher level. - To train students to work in medical records dept. or other data collection areas in Hospital & nursing home. After completion of this course student can get placed into Medical record dept. or Healthcare BPO

CAREER OPPORTUNITIES :

- | | | |
|----------------------------------|--------------------------------|--|
| • Assit. Dialysis Technician | • Assit. Optometrists | • Assit Medical Record Technician |
| • Critical care Technician | • Assit. ophthalmic Technician | • Medical Coding Executive |
| • Executive-AR & Medical Billing | • Assit. Refractionists | • Executive –Healthcare IT firms for Software development & training |

Sectors with Job Opportunities

- Dialysis Centers
- Optical Centers
- Research Centers
- Hospitals
- Self Employed

Placement

Name : Vinayak A. Magar
Course : Diploma in Electrical Engineering Services
KTI Branch : Solapur
